Morton received 4,701 votes, and had it not been for the fact that 576 votes were cast for the Prohibition. Socialist, People's and Shepard candidates, it is not unlikely that Mr. Morton would have carried the county.

While Daniel N. Lockwood polled exactly the same vote as did Senator Hill, he beat his opponent, Charles T. Saxton, 145 votes in the county, or by 12 more votes than Mr. Hill beat Mr. Morton. When it is remembered that Richmond County has always been a Democratic stronghold, some idea of the earnestness of the people's desire to change political leaders may be obtained.

Judge Charles F. Brown fared but little better than Senator Hill or Mr. Lockwood, only beating his opponent, Albert Haight, 211 votes.

Judge Cullen had the endorsoment of Democrats and Republicans, but there were no less than 357 votes cast against him.

Austin E. Ford, the Republican candicate for Cangress, carried the county by 766 votes, white Michael Conklin, the

diesis for Congress, carried the county by 76 votes, while Michael Conklin, the Beroblican candidate for the Assembly, was elected by 1,220 plurality. Hed •, the Democratic candidate for Sheriff was snowed under by a majority of 1468.

REAL RAPID

The People Declare that the City Shall Build the Underground Road.

THIS VOTE IS A BINDING ONE.

Construction Must Begin Within Thirty Days After the Official Count.

Big Centracts to Be Put in Opera Before Winter Sets In

According to returns received at Police Headquarters and tabulated this morning, it is evident that the Rapid Transit question has been decided by the in favor of the city building an ground railroad under the

Section 12. The said Board of Re Railway Commissioners shall cause whether such railway or railways of structed by the city and at the public submitted to the vote of the qui of the city within which such railways is or are to be constructed, at it shall be the duty of the said Bor it shall be the duty of the said Bor pletton of the fettiled plans and as required by the act hereby any thirty days prior to the next gene by the with the public officer or object.

Ananalysis of the vote is interesting, inasmuch as it demonstrates that the people are in favor of building the road for themselves by an average majority

for themselves by an average majority of not less than four to one.

For example, twenty election districts in the Second Assembly District show that the people of the district are in favor of real rapid transit in the ratios of 31-2 to 1, while twenty districts in the Twelfth Assembly District show the ballor to have been cast in the ratio of 5 to 1.

The First and Seventh Assembly Districts vote 4 to 1 in favor of rapid transit, while the Tenth Assembly District ask for the same thing by a vote of 4 to 1.

The result of the vote is final and binding. It positively determines the subject, and the city now builds the road.
